

Eppili Bhargava

Salesforce Developer

 [eppilibhargava](#)

 Bangalore  7205556224  bhargavaeppili@gmail.com

Summary

Salesforce Developer with **2.6** years of experience. **1.6** years of **hands-on** experience in **Apex, custom objects, security models, and deployment processes**. Delivered scalable **Salesforce solutions** using **Process Builder** and **Flows**. Previously worked as a **Java Developer** at **Wipro**. Proficient in **Java plugin development, CI/CD with GitHub Actions**, and build tools like **Maven** and **Gradle**. Experienced in **automotive EE architecture, SysML modeling in Rhapsody**, and **ARXML/DBC** formats.

Experience

Wipro, India

Salesforce Developer

2023 - 2024

Bangalore

- Developed scalable Salesforce solutions using **Apex, Visualforce, and Lightning Web Components (LWC)**, along with **custom objects** and fields to meet **complex business requirements**.
- Built and automated business processes using **Process Builder, Flows, and validation rules**, while optimizing **SOQL queries** for **performance** and **data accuracy**.
- Ensured **data security** and **platform stability** through rigorous **testing** and configuration of **profiles, permission sets, and sharing rules** before deploying to production.

Java Developer

2022 - 2023

Bangalore

- Developed custom **Java plugins, streamlined builds** with **Maven/Gradle**, and implemented **CI/CD** using **GitHub Actions**.
- Specialized in **automotive EE architecture, SysML modeling in Rhapsody**, and **ARXML/DBC** data formats.
- **Mentored teammates** and **contributed** to **network configuration** using **GNS3, Docker, and Netplans**.

Education

Centurion University of Technology & Management

Bhubaneswar, Odisha

2017-2021

Projects

3D Model of University

Created a **detailed 3D model** of the **university** using **Maya** and **Unity**, which included **buildings, parks, fountains, and other key structures**. **Textured** and integrated various elements, including **trees, plants, students, and cars**, to provide a **realistic environment**. Produced an **animated walkthrough** video to showcase the **entire university** campus.

3D Cube Runner Game Development

Designed and developed an engaging **endless runner game** using **Unity** and **C#** for the **Android platform**, where players **navigate a cube through obstacles with progressively challenging levels**. Enhanced gameplay experience by **increasing difficulty**, with additional **obstacles** and **faster speeds** at **each level**.

Internship

Unity WebGL & App Development for Medical Education

Developed interactive **WebGL** and **Android applications** using **Unity 3D, Maya, and C#** for **educational purposes** targeted at **medical students**. These applications feature **educational content** with **visual** and **audible elements**, allowing users to **read, listen, and interact** with **3D models** created in **Maya** and **textured** in **Unity**. Enabled **AR mode** functionality on **Android devices** for **immersive 3D model experiences**.

Skills

Salesforce Development: Apex, Visualforce, LWC, Data Loader, Flows, Process Builder.

Programming: Object-Oriented Programming, Java Development, C Programming, C#.

CI/CD: GitHub Actions, Gradle Build Tool, Maven Build Tool.

Database: Database Optimization, SQL, SOQL.
